When it comes to escaping the real world and killing a little time, it's hard to beat the magic of some PC gaming. League of Legends uses a freemium model where characters rotate weekly, and certain extras cost money. Matches take place between five-person teams that focus on destroying their opponents' bases and towers. In this game, you must coordinate with your teammates to destroy the opposing team's base. We have a guide for the best flash drives if you're looking to purchase one. Again, you'll have to have Bluetooth enabled on both PCs. Then, make sure they're on the same Wi-Fi network. After that, do the same on the PC you're sharing to. Step 5: Navigate back to the open window for your USB drive. Step 2: Compose a new email, and then click the Attach button (it's a paper clip). For other services like Gmail, you can look for support documents online. Find your file, and then click on it to drag it to your desktop or any other location on the second PC. Step 2: In the pop-up prompt that says Choose an Action, choose the option to Open Folder to View Files. Step 6: From the network section, click on your main PC name to navigate to the location where the file is saved on the main PC (in the location you noted earlier). Photo Courtesy: @LeagueOfLegends/Twitter The game rewards careful tactics and good teamwork and is always free to play, but if you want to keep your character after a week or add any special features and enhancements to your game play, you will have to pay a fee. We prefer using Microsoft's OneDrive and Outlook, so our directions will cover these services. Every once in a while, a PC might have a file that you really need on another computer. Also look out for newer drives that have USB-C, as newer PCs don't have traditional USB-A After After that, in the and you may not need a dongle for your drive. Press Control + V to paste the file into the USB drive. Step 1: Sign in to OneDrive using your web browser. Step 2: In OneDrive, click the blue button Upload at the top of the screen. Then choose Files. You can also create a folder with the button New left, if you wish. It can be an important document, a set of photos, or maybe something you don't want to print on another computer. League of Legends League of Legends One of the most played Battle Arena online battle games available for the PC. Like League of Legends, Brawlhalla engages in a weekly route of playable characters, but you can't always buy your favorites using the currency in the game you don't collect while playing. The game dumps you into a world with 99 other players, where you don't engage in a free battle for everyone until only one player remains. This whole thing involves having a connection to the Internet on both PCs, but otherwise, it is the simplest option. Wireless transfers with nearby Another thick way to transfer one file from one PC to another is through the sharing menu near Windows 10, by Nintendo. Not expecting to dominate the complexities of this game overnight, but the action starts as soon as you click on the button to play. They necessarily offer many new features regarding previous years, but they tend to introduce game improvements, such as dribbling and players' response ability. The PC Gamer evaluated the 86th scam of 100, with particularly high notes in Arena combat. If you will not come this configuration in the center of action, you can look for it in the Windows configurations application and then alternate the option for everyone near. This is something better at home or in the writing. You must see your other main PC with the file listed here now. When we say fanic Mom, we mean something you can connect one PC and then another. Connect it to the other PC and then choose to open folder to view files. Step 5: The file will be loaded. You fight in competitions with four players, and the ultimate goal is to beat your adversary out of the arena to score points. The game offers opportunities to make money from the game while you play, which you can use to buy champions. If the file is too large, try compressing it. Using a cloud storage or fanic Mother Storage Service as a USB unit to use a network transfer, we have to covered with our guide on how to transfer files from PC to the PC. Courtesy Photo: Eclipse images/E+/Getty Images with the still drastically slowed world due to the global pandemic of new coronavirus, many people are still confined to their homes and looking for ways to fill all their unexpected free time.
